Blowin' In The Wind

Bob Dylan

MusicXML Part

How many roads must a man walk down before you

How many times must a man look up before he can

How many years can a mountain exist before it's

How many seas must a white dove sail before she sleeps in the sand?

How many ears must one man have before he can hear people cry?

How many years can some people exist before they're allowed to be free?

How many times must the cannon balls fly before they're forever

How many deaths will it take 'til he knows that too many people have

How many times can a man turn his head pretend he just does n't
