The young ones
dar-ling we're the young ones and
young ones should n't be a-fraid
to live love while the flame is
strong
we won't be the young ones ve-ry long
to-mor row why wait till to-
mor row some-times ne-ver com-es so love me there's a song to be
sung
and the
best time is to sing it while we're young once in ev-ry life-time
comes a love like this
I need you and you need me Oh my dar-ling can't you see
Young dreams should be dreamed together young hearts

shouldn’t be afraid and

some day when the years have flown darling this we’ll teach the

young ones of our own. The

own The young ones darling we’re the

young ones the young ones darling we’re the young ones
